Board Reduced to \$2 per day.

Since the opening of this vast and commodious Hotel, in 1854, it has been the single enterprise of the proprietors to make it the most sumptuous, convenient and comfortable home for the citizen and stranger on this side the Atlantic.

And whatever has seemed likely to administer to the comfort of its guests they have endeavored, without regard to cost, to provide, and to combine all the elements of individual and social enjoyment which modern art has invented, and modern taste approved; and the patronage which it has commanded during the past six years is a gratifying proof that their efforts have been appreciated.

To meet the exigencies of the times, when all are required to practice the most rigid economy, the undersigned.

Have Reduced the Price of Board to TWO DOLLARS PER DAY.

TELEGRAPHIC NEWS.

DISPATCHES BY THE WESTERN UNION LINE.

Noon Dispatches.

Edwin James, the English Lawyer, on the Capture of Slidell and Mason.

St. Helena Taken by the Federals.

14,000 REBELS AT HARDYVILLE.

Rebels Concentrating at Bluffton.

PLANTERS THREATEN TO BURN THEIR COTTON.

REBEL GUNS IN FEDERAL HANDS.

New York, Nov. 28.—Edwin James, the distinguished English lawyer, now resident here, in a published letter in regard to the Mason and Slidell case, says when the question is submitted to the Cabinet, England to the law officers, or the responsible adviser of the Crown, those authorities before giving their opinion, will, in all probability, require from the officer in command of the Trent, distinct answers to the following questions:

First. Were you acquainted with the terms of Her Majesty's proclamation commanding strict neutrality on the part of all her subjects, during the term of hostilities between the Northern and Southern States?

Second. Did you know that the two gentlemen when they became passengers, not refugees, on board your vessel, were employed themselves or were employed in an enterprise of direct hostility to the constitutional Government of the United States?

The answer to these two questions in the affirmative, and consistently with truth they cannot be answered otherwise, will reduce the question to very narrow dimensions—Should any doubt exist upon the second proposition, the message recently sent by Jeff. Davis to his Parliament at Richmond, will much facilitate its solution.

I am, Sir, faithfully yours,
EDWIN JAMES.

Letters from Port Royal report an expedition left on the 24th for St. Helena, and without striking a blow took the enemy's works. The guns had been carried inland.

Another expedition to the interior was on its way.

It was reported there were 14,000 rebels at Hardyville, twenty miles from Hilton Head, under Gen. Drayton, most of them imported men.

The rebels are also said to be concentrating a force at Bluffton.

Appearance indicate that the planters are determined to burn their crops on the appearance of our troops or gunboats.

The rebel guns at Bluffton's Point, the extreme southern end of Hilton Head Island, have been unspiked and are now in readiness for use by our forces.

FROM WASHINGTON.

Heavy Shipments of Forage.—Gen. Sherman instructed to seize and ship Cotton, Rice, etc., and to use Negroes for Fortifying Gen. Sumner's Command.—The Nashville Reported in Charleston Harbor.—Presence of Ball's Bluff—News Expected from Port Pienk.—Also that Gen. Sherman has made an important move on the coast.—He is believed to be about to make a move on the coast.

WASHINGTON, Nov. 28.—The report of Major Belger, Quartermaster at Baltimore, is satisfactory to the Department, showing that he has dispatched the forage of 300 vessels by Railroad, to Washington within the last thirty days, being average of 2,000 tons daily, besides a large amount of stores to the subsistence department.

TRIBE'S DISPATCH.

Adjutant-General Thomas sent out instructions, to-day, to Gen. Sherman in Beaufort to take possession of all the crops on the island, cotton, rice, etc., as a military act, and to ship the cotton and other crops as were not wanted for the army to New York to be sold there for account of the Government.

Gen. Sherman was also directed to use the negro slaves together, and secure the crop of cotton and corn, to erect his defenses at Port Royal, and other places on the island.

Gen. Sumner's division consists of Gen. Howard's and the Irish Brigade, two more regiments of the Pennsylvania Regiment, with a suitable contingent of cavalry and infantry. It marched last night to its position, which is between the divisions of General Heintzelman and Franklin, the former having pushed some distance further down the river.

There is a report here to-day that the rebel steamer Nashville has run the blockade off Charleston, and entered that port with a valuable cargo, consisting of woolen goods, wires for telegraphic use, salt, etc. While this report comes only through rebel channels, there is reason to believe it, as one of our Scouts notified the Government some time since that the Nashville was loaded in a certain foreign port and was intending to run the blockade.

The Government is expecting news to arrive from Port Pienk in about two days.

The War Department is hourly expecting the announcement from Gen. Sherman that he has taken possession of the rebel fortifications commanding the entrance to St. Helena Sound, about fifteen miles north of Port Royal, and commanding the outlet of the Coosaw and Combahee rivers, thus securing entire control of all the approaches to Charleston, and the route to the interior of the Palmetto Kingdom.

The rebels are already falling back from the Potomac, before the stern and certain advance of the Union forces. They hardly offer resistance to the passing of our vessels. Many have come up within the last few days loaded with coal, to such an extent as to lower the price of that article from \$10 to \$5.

The reliance came up to the Navy Yard from Indian Head last evening. Capt. Hammond reports that just before he left at half past 1 o'clock, a heavy fire was opened from the rebel batteries at Shipping Point. Three or four shots were fired while the reports were in sight or hearing. Nothing could be ascertained in regard to the object the rebels were firing at. No vessel appeared beyond Stump Neck, consequently the supposition is that the batteries opened on the Maryland shore.

TRIBE'S DISPATCH.

Butler's Expedition Sailed.—Fremont in New York.
New York, Nov. 28.—The Constitution, with the advance guard of Gen. Butler's expedition, left Hampton Roads on Wednesday afternoon, for her destination Southwest. General Fremont arrived here last night.

Ladies from Norfolk but no News.
BALTIMORE, Nov. 28.—The Old Point boat has arrived. A flag of truce brought some Southern news, but no news. The rebels are evidently endeavoring to keep back Southern news.

Rebel Outrages in Missouri.
St. JOSEPH, Mo., Nov. 28.—A band of rebels under the notorious S. Gordon captured Capt. Hobbs, Capt. White, Lieutenant Moonlight, three United States officers from Railroad train at Weston to-day.

The rebel Steinh, with 50 of his followers is reported to be near Weston.

Night Dispatches.

FROM PORT MONROE.

Further from Pensacola.—Pienk not Breached.—Rebel Hopes for Reinforcements.—Briggs' Expedition.—A Branch expedition—New York entirely destroyed by Briggs' fleet.—Pensacola evacuated.—The Federal fleet—Briggs' Bragg—What will try to do.—What is supposed to be the facts in the case.

The following is the Philadelphia Enquirer's Pensacola report:

Port Monroe, Nov. 27, p. m.—Passengers by a flag of truce from Norfolk this morning, furnish some further news in regard to the fight at Fort Pickens. These particulars, it must be remembered, come through rebel sources.

Gen. Bragg had not made a breach in the fort as was before reported.

Great excitement was prevalent throughout the South respecting the battle, but it was thought Bragg would be able to force Col. Brown to surrender.

A messenger arrived from Pensacola on Sunday last, with a preliminary report for reinforcements. Bragg was at that time holding an early morning conference with his staff.

His regular salvoes are described as being really terrible. The General was perfectly cool and confident. No breach had been made on Monday one would be manifest when Bragg expected reinforcements, and would storm with fresh troops and ordinance.

Col. Brown had concentrated a perfect storm of shot and shell upon the navy yard, burning it down, together with all the out-buildings, and a considerable amount of ordinance stores.

Pensacola had been evacuated by order of Gen. Bragg.

Col. Brown had called to his assistance five vessels of war, all of which had been driven off by the batteries.

The steam frigate Niagara was almost riddled with shot, and the Colorado thoroughly disabled.

Gen. Bragg had declared to his troops that he would never surrender alive, and the greatest enthusiasm prevailed among the men.

On Tuesday Gen. Bragg would engage Col. Brown in front, and land a large force on the island, so as to take him in the rear.

It is generally believed that an action has taken place at Pensacola, between our fleet and the rebels, and that Bragg has been whipped, Pensacola burned, and probably Bragg's whole force captured.

THE DISPATCHES IN THE Southern papers have no apparent end or beginning and are very meagre.

FROM WASHINGTON.

The Flag of the Union Flies over Georgia Soil.—Tybee Island Occupied.—Approaches to Savannah Completely Closed.—The President's Message not to be sent out in Advance of Delivery.

WASHINGTON, Nov. 28.—Dispatches received to-day from the Navy Department, from flag officer Dupont, dated Fort Royal, 25th inst., giving the gratifying intelligence, that the flag of the United States is flying over the Territory of the State of Georgia.

Tybee Island, which he says, is within easy mortar distance of Fort Pulaski, has been taken possession of and the approaches to Savannah completely cut off. On the island is a strong military tower with a battery as large as any in the South.

The cargo of the captured British schooner Marble consisted of seven boxes of blankets, four cases of cloth, three boxes of starch, twenty-five boxes of tin, 120 boxes of coffee, 20 bushels potatoes, 200 lbs. sugar, and a small quantity of other articles.

Looked over a box of shoes six bags of raw cotton, one case of pistols (revolvers), two cases of cavalry swords, and two cases of stores.

The Marble was formerly named the John W. Anderson, of Baltimore, there strong presumption of her intention to run the blockade. She will be sent to Philadelphia for adjudication.

According to present indications the President has no hope of being able to advance of its delivery to Congress. The reason for this is probably the fact that it, as well as the reports of the Secretary of War and Navy, will be kept open until the latest moment, in order to make such additions and alterations as the constantly recurring events may require.

FROM NEW YORK.

The Corps de Lion runs the rebel Battery—Four two shot miss their mark—A stranger at Fort Monroe—What he carried in his trunk—Conjectures—The Flag is hoisted out as a Man of War.

NEW YORK, Nov. 28.—The Ft. Monroe correspondent of the Philadelphia Enquirer announces the arrival there of the United States gunboat, Corps de Lion from Washington. She has been fired on by the rebels but received only one, doing little damage.

A man calling himself Bryan O'Hara, of Porto Rico, who came from Norfolk to-day with a flag of truce, was detained by Gen. Wool and his troops examined. It contained valuable papers, some sealed and stamped by the British Consul at Charleston and directed to Lord Lyons. These were sent to Secretary Seward for inspection. O'Hara is suspected of having been an officer aboard the Fingal, which, he says is to be fitted out for a man of war at Charleston, and carry a formidable Battery of Whitworth rifled guns. He says the Fingal arrived off Tybee two weeks since from Southampton via Porto Cabello, and that he was on board the same.

Some of the arms brought by the Fingal are being used against Fort Pickens.
